

AusPat Data coverage

Notes

- Specifications are being back captured and will be available for display and searching in a future release of AusPat
- AusPat links AU-A, B and C documents from 17 December 1998 in the AU-A,B,C Patent Specification System.
- IPC data is available for OPI applications from 1920.
However, not all published applications 1920-1979 have IPC data available.
- IPC version 8 has been applied to applications filed from 1970.
- Application Number to Serial Number Concordance data.
From serial number 100001 (25558/35) to present.
- Standard patent applications filed from 1979.
PCT applications filed after 1 January 2004 are only available once they have entered the National Phase.
No data for some early applications that lapsed/were withdrawn before OPI.
There is some data coverage pre-1979
- Petty patent applications filed from 1979
- Innovation patents filed from 24 May 2001
