Message from the Acting Director General

Thank you for considering IP Australia as your next career move. Our purpose is to enable Australians to benefit from great ideas by providing a world leading intellectual property (IP) system. Trade, investment and commercialisation all rely on an innovation ecosystem that is modern, effective and efficient. Our work helps ensure Australia remains resilient and internationally competitive.

Innovation and a strong commitment to customer service excellence underpin everything we do. We harness data and technology, including artificial intelligence, to continually improve the quality, accessibility and impact of our services. We embrace change, seek new ways of working, and remain curious and open to feedback — including through initiatives such as our in house innovation lab, IPA Ventures.

Our people are at the heart of our success. We are a high performing agency that invests in capability building, meaningful career pathways and strong, values driven leadership.

We foster a positive, inclusive culture where everyone feels respected, supported and able to do their best work.

Our People Strategy and Diversity and Inclusion Strategy guide how we work together and set clear expectations for behaviour, leadership and accountability across the organisation.

We also recognise the importance of balancing work with life outside of it. IP Australia offers a genuinely hybrid and flexible workplace, supporting wellbeing while enabling agility, collaboration and high performance.

By protecting ideas and rewarding creativity, our work supports Australia's economic prosperity and encourage innovation that benefits the wider community.

I encourage you to explore the opportunities at IP Australia and consider joining us.

Margaret Tregurtha
Acting Director-General
IP Australia

Candidate Kit

Position Title:	Assistant Director, Project Delivery
Classification:	Executive Level 1
Supervisory/Management	The role will have no direct reports initially. Supervisory and management responsibilities are anticipated in the future.
Employment status:	Ongoing and Non-ongoing for a period of up to for a period of up to 12 months
Number of vacancies:	Multiple
Employment type:	Full-time or part-time (0.6 FTE)
Salary:	$123,808 – $139,346 + 15.4% employer super contribution (pro-rated for part-time)
Section:	Plant Breeder's Rights Products, Projects and Business Operations (PPPBO)
Group:	PBR and Oppositions Group
Location:	Flexible location - IP Australia employees can work from anywhere in Australia, providing they can maintain a safe and productive working environment. We have offices in Canberra (Ngunnawal Country) and Melbourne (Naarm), and a shared hub in Sydney (Gadigal Country). Employees close to these locations can maintain a hybrid approach of working in the office and from home. Candidates who are successful in this role will be required to travel to Canberra occasionally.
Security Classification:	BASELINE
Contact officer	Clinton McCarthur 02 6283 7924 clinton.mccarthur@ipaustralia.gov.au

Group Responsibilities

The Plant Breeder's Rights and Oppositions Group administers Australia's Plant Breeder's Rights system and manages formal oppositions, hearings, reviews and appeals across IP Australia's intellectual property rights. It also leads quality, practice and customer consultation for Plant Breeder's Rights and Patents and provides specialist advice on intellectual property policy and legislation.

Plant Breeder's Rights give rights holders exclusive commercial rights over new plant varieties, including control over their production, sale and licensing. This enables breeders to earn a return on their investment and encourages continued innovation in plant breeding.

Through these responsibilities, the Group supports high-quality, consistent and timely decisions and services for customers and stakeholders.

Section Responsibilities

The Plant Breeder's Rights Products, Projects and Business Operations section (PPPBO) improves the services, systems and processes that support Australia's Plant Breeder's Rights system. The section turns policy, legislative, operational and customer needs into practical improvements that make services easier to use and operations more efficient, consistent and sustainable.

Working with customers, staff and specialist teams, PPPBO designs and delivers projects and digital improvements, supports people through change and monitors whether the intended benefits are achieved. The section offers the opportunity to shape meaningful improvements from initial idea through to implementation and adoption, while contributing to broader productivity and continuous improvement across IP Australia.

Our Opportunity

We are seeking Assistant Directors to help improve Plant Breeder's Rights services, staff and customer experience, and business systems.

Working within a small multidisciplinary team, you will engage with staff and customers, decide what improvements matter most, turn needs into project plans, delivery plans and requirements, and guide changes to PBR systems, services, practices, and processes through implementation and adoption.

Responsibilities will be allocated according to skills, experience, capacity and business priorities. You may have a stronger focus on product ownership or project delivery, while working collaboratively across both areas and providing cover when needed to maintain essential services. While the role will not initially have any direct reports, it is expected to recruit and supervise a new change and communications role anticipated to be established soon after appointment.

The work includes:

- Working with customers, staff and subject matter experts to understand needs and identify opportunities to improve systems, services, practices, and processes.
- Prioritising, scoping, planning, and delivering projects and system improvements by balancing customer value, organisational priorities, legislative obligations, risks and available resources.
- Gathering and documenting detailed business and user requirements, expected outcomes and acceptance criteria.
- Planning and coordinating transition and adoption activities to prepare customers and staff for change and support successful implementation.
- Monitoring and reporting on progress, risks, issues and benefits, and collaborating with Product Owners and delivery teams to support consistent experiences across IP Australia's business systems.

We expect the successful candidate to start around March 2027. The position may be offered on an ongoing or non-ongoing basis and we will consider full-time or part-time arrangements. For part-time arrangements, we prefer at least 60% of full-time hours worked across at least four days each week, although we may consider other arrangements.

Where a non-ongoing position is offered, the role will be filled for a specified term of up to 12 months.

At the end of the recruitment process anyone rated suitable will be placed into a merit pool. This means we won't offer you a role now, but we might if one becomes available later. The merit pool will be valid for 18 months from the date of advertising and we can offer future roles permanently or on a temporary basis.

Job specific capabilities

The successful candidates will demonstrate capabilities in:

- **Planning and managing projects:** defining scope, outcomes and responsibilities; preparing fit-for-purpose project and delivery plans; and monitoring progress, risks and dependencies.
- **Planning and supporting change:** helping users understand and prepare for change, supporting adoption, and measuring uptake to identify where further support is needed.
- **Understanding needs in a regulatory environment:** identifying customer and business needs and balancing them with organisational priorities, legislative obligations, risks, effort and available resources.
- **Defining system requirements:** working with customers, staff and subject matter experts to translate needs into clear, testable requirements, acceptance criteria and expected outcomes.
- **Analysing information and solving problems:** applying evidence, judgement and practical analysis to inform decisions, resolve barriers and support delivery.
- **Communicating and collaborating:** engaging clearly with a variety of stakeholders orally and in writing to understand needs and support change management.
- **Taking ownership and delivering outcomes:** working autonomously, meeting commitments and delivering work to the required standard and timeframe.
- **Supervising and developing an employee:** setting clear expectations, providing feedback, managing performance and supporting capability development.

You do not need to have held a Product Owner or Project Manager title. We welcome relevant experience across product, project and business improvement work.

How to apply

Applications must be submitted through the relevant job listing on IP Australia's Career Page. To apply for this role, you will be required to complete an online application form, as we do not accept emailed applications.

As part of your application, you will be asked to provide:

- Your response to each application question below in 300 words or less. When drafting your response make sure you use practical examples to demonstrate your capability and experience relevant to the role requirements. Please note, you will be asked to upload your responses as a singular attachment.
- A current CV outlining your relevant employment history and experience.
- The names and contact details of two referees (preferably including your current manager).

Question 1:
Briefly outline your experience in project delivery. Using an example, explain your contribution to planning, prioritising and delivering the work.

Question 2:
Briefly outline your experience improving systems, services, practices or processes. Using an example, explain how you understood user needs and translated them into clear requirements or delivery decisions.

Question 3:
Outline other skills, knowledge and experience you could bring to the role including supervision and leading users through the adoption of change.

To help ensure you receive important updates throughout the recruitment process, please make sure the email address used in your application is up to date and monitored regularly, as most communication will be sent via email. As applications are managed through our recruitment system, we are unfortunately unable to update contact details once an application has been submitted.

If you have difficulties navigating the online application form, please contact the Recruitment team on 02 6283 2567.

Eligibility requirements for employment at IP Australia

Under section 22(8) of the *Public Service Act 1999*, employees must be Australian citizens to be employed in the Australian Public Service (APS).

All applicants offered employment will be required to successfully undergo a pre-engagement screening check, even if they have a security clearance. The screening check involves reviewing your background & personal circumstances to minimise risks in giving access to IP Australia information/resources. This screening check is conducted in accordance with the Australian Government Protective Security Policy Framework requirements.

Some applicants may be able to obtain and maintain a security clearance at a specified clearance level – please check the vacancy information section for security clearance requirements.

The successful applicant must be willing to disclose all relevant and required information.

How you will be assessed

IP Australia use competitive merit-based recruitment processes. You might hear recruitment in the APS being talked about as 'merit-based'. This refers to the rules we follow during a recruitment process and means candidates are assessed based on the specific skills and duties of the job, so make sure you focus on these.

In addition to assessing to see if you have the required skills and duties, we also look at how well you can meet the capabilities required for this classification. The capabilities we look for are provided on the last page of this document.

You will be assessed using a range of methods which will likely include reviewing your application and resume, joining us for an interview, and confirming your details with your referee/s. You can request adjustments to assist with one or all of these methods.

There is a helpful document called Cracking the Code which provides information about recruitment processes and how to apply: https://www.apsc.gov.au/sites/default/files/2020-12/cracking_the_code.pdf

Capability framework

At IP Australia, we have a Capability framework that provides a consistent approach to support recruitment, learning and development, performance development, and workforce planning. We have adopted the Integrated Leadership System (ILS) within our framework to align to the wider Australian Public Service (APS).

At the core of the framework is an innovative learning mindset – embracing experimentation, managing risk, and adapting to change and technology. This mindset fosters continuous growth, driven by curiosity, adaptability, openness, and resilience.

It is expected that all IP Australia employees:

- uphold and maintain the APS Values and Code of Conduct
- maintain an understanding of their/worker responsibilities under the *Work Health & Safety Act 2011* (WHS Act) and a commitment to promoting a healthy and safe workplace
- look for appropriate opportunities to do things differently and be willing to embrace innovation and change
- embrace opportunities to interact with transformation – data, digital and artificial intelligence (AI) – and understand your obligations to uphold data integrity and support data governance embrace lifelong learning and knowledge sharing.

If you are applying for a role that has manager responsibilities, you are expected to:

- instil a culture of lifelong learning and knowledge sharing
- lead your team to understand their obligations in dealing with data, digital and AI tools
- anticipate and prepare for impact of innovation and change and align innovation activities to strategic objectives.

There is a summary page for the classification of this vacancy at the end of this candidate kit. The full document is available on our website and helps you understand what is expected for your role. You should also use the capabilities to assist you prepare your application response.

AI in recruitment at IP Australia

We are embracing the use of Artificial Intelligence (AI) at IP Australia and exploring the benefits it can offer. Our usage of AI in recruitment processes, and broadly across the agency, will always be ethical, responsible, transparent and explainable.

Our use of AI

Some of the ways we use AI in our recruitment processes include:

- polishing and refining advertising materials
- assisting in the development of assessment activities
- transcribing recorded virtual interviews, where candidates have been informed, to support accurate and consistent preparation of selection reports.

While AI helps us improve efficiency, it's important to know that it will never make decisions about your suitability for a role.

Our recruitment processes comply with the *Privacy Act 1988*, and your personal information will not be entered into AI systems. Panel members also receive training to understand risks such as bias and lack of transparency, and how to use AI responsibly and ethically.

Your use of AI

You're welcome to use AI tools to help refine and polish your written application. However, for later stages of the process, such as interviews or assessment activities, we ask that you complete these on your own. This helps us understand your unique skills and capabilities for the role.

Our recruitment process is designed to give everyone a fair opportunity to demonstrate their strengths. If AI is used in ways that misrepresent your abilities, it could affect the outcome of your application.

Please note – this does not include the use of assistive technologies such as JAWS

Diversity and inclusion

We celebrate and champion diversity to ensure we reflect the community we serve, and pride ourselves on our inclusive culture. We welcome applications from Aboriginal and Torres Strait Islander peoples, people of all genders, people with disability, people from culturally and linguistically diverse backgrounds, those who identify as LGBTQA+, mature aged employees and carers.

Reasonable adjustments

We want you to be able to shine in the assessment process so if you require any personalised adjustments to assist you to participate fully in this recruitment process, please indicate this in your application form (or by contacting the Recruitment Team).

A member of either the Recruitment Team or the Selection Panel will contact you to discuss your needs. All reasonable requests for adjustments will be facilitated if possible. Personalised adjustments are also available to employees who commence with IP Australia to assist them to perform the duties of their role to the best of their ability.

Any information provided is private and confidential and will only be used to provide accommodations and will in no way determine the outcome of an application.

RecruitAbility

The RecruitAbility scheme has been applied to this vacancy. RecruitAbility is a scheme which aims to attract and develop applicants with disability.

Applicants with disability who opt into the scheme; declare they have disability; and meet the minimum inherent requirements of the vacancy will be advanced to a later stage in the selection process. Merit remains the basis for engagement and promotion.

Working at IP Australia

IP Australia is the Australian Government agency responsible for administering Australia's intellectual property (IP) rights system, specifically patents, trademarks, designs, and plant breeder's rights. IP Australia also undertakes programs to educate and promote an awareness of IP, provides IP policy input to Government, develops legislation to support the IP system and contributes to bilateral and multilateral negotiations to improve IP protection internationally.

Australia's IP rights system supports innovation, investment, and international competitiveness. IP investment in Australia is valued at about 40 billion dollars.

We are an Australian Government agency with a passion for bright ideas, offering a great work-life balance, flexible working arrangements and rewarding career paths in the IP industry and/or Australian Public Service.

IP Australia embraces flexibility, including hours and location. Most of our roles can be done from anywhere in Australia, as long as you have reliable internet connection and an appropriate office set-up. We have offices in Canberra (Ngunnawal Country) and Melbourne (Naarm) and a shared hub in Sydney (Gadigal Country) for employees who are located within a

reasonable distance to the office and most employees work a mixture of days in the office and days from home. Employees who are not located near an office, work completely remotely.

Working in the APS

Australian Public Service (APS) Values guide us through our working lives, setting expectations for shared behaviour that keep our workplace harmonious and productive. The values are also a promise to the people of Australia that we can be trusted to act with integrity, in their service and in accordance with the Public Service Code of Conduct.

You can find out more about the APS's Employee Value Proposition here: Work with us | APS jobs
