

Have a business idea and don't know where to start?

These resources can help you transform your idea into a business and find government support along the way.

The mission of the ASBFEO is to help ensure Australia is the best place to start, grow or transform a business. We do this by assisting and advocating for small business and family enterprise. Learn more about our services at asbfeo.gov.au

Australian Government
Australian Taxation Office

The ATO works collaboratively with small business to design solutions that seamlessly integrate tax, super and registry requirements into small business systems. We support small business success by offering free, reliable services and resources, helping shape a fair and effective tax and superannuation system.

Australian Government
Department of Industry, Science and Resources

AusIndustry

AusIndustry helps your Australian business access government advice and support so you can grow, innovate, and thrive. To learn more about tools and information available, visit business.gov.au

Australian Government
Australian Trade and Investment Commission

The Australian Trade and Investment Commission (Austrade) helps grow Australia's prosperity by delivering quality trade and investment services to businesses, accelerates growth in Australia's tourism sector and promotes Australia's education to the world. Go further, faster with austrade.gov.au

As Australia's national science agency, CSIRO solves the greatest challenges through innovative science and technology. CSIRO accelerates innovation through a range of programs and funding opportunities for researchers, starts-ups and small to medium sized enterprises.

Fair Work
OMBUDSMAN

The Fair Work Ombudsman helps small businesses with information about workplace rights and obligations, such as pay and entitlements. To see how we can help, visit www.fairwork.gov.au

Australian Government
Department of Finance
Selling to Government

The Department of Finance's Selling to Government website helps businesses understand and engage in Australian Government procurement. If you're interested in selling to the Government, it provides the key information and starting point you need. For more information, visit sellingtogov.finance.gov.au

Australian Government
Department of Home Affairs

The Department of Home Affairs manages Australia's border security, immigration, cyber and critical infrastructure security, counter-terrorism, citizenship, and social cohesion programs. Its Business, Industry and Regional Outreach Officers (BIROs) work closely with businesses and industries to help them understand skilled visa options when Australian workers aren't available.

Australian Government
eSafety Commissioner

eSafety is Australia's independent regulator for online safety. The eSafety Commissioner's (eSafety) Safety by Design initiative advocates a set of principles that puts user safety at the centre of the design, development and release of online products and services.

Australian Government
ASIC
Australian Securities & Investments Commission

The Australian Securities and Investments Commission (ASIC) supports and protects small businesses by equipping company directors with clear, accessible information and reliable registry and digital services, helping them understand and meet their obligations, navigate key milestones, and addressing misconduct that causes harm.

Australian Government
IP Australia

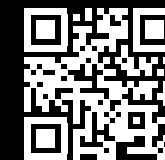

Intellectual property (IP) rights protect your ideas and are an intangible asset for your business. Protect your IP early to safeguard your competitive edge. IP Australia is the government agency responsible for administering IP rights for trade marks, patents, design rights and plant breeder's rights.
