The Registrar of Trade Marks  
IP Australia  
PO Box 200  
WODEN ACT 2606

Dear Registrar

**Certification Trade Mark Application No. 1048490-  
Australian Egg Corporation Limited**

The Australian Competition and Consumer Commission (the ACCC), in accordance with the provisions of the *Trade Marks Act 1995*, has completed its final assessment of Certification Trade Mark (CTM) No. 1048490.

A certificate detailing the ACCC's assessment is attached, as well as a certified copy of the rules. The applicant has been notified.

If you have any queries on this matter, please contact Sheridan de Kruiff on 02 6243 1236.

Yours sincerely

Isabelle Arnaud  
Director  
Adjudication Branch

Australian  
Competition &

Commission

**Final Assessment of Certification Trade Mark Application 1048490 lodged by the Australian Egg Corporation**

The Australian Competition and Consumer Commission (the ACCC), in accordance with the requirements of the *Trade Marks Act 1995*, has completed its Final Assessment of the above Certification Trade Mark (CTM) application.

The ACCC's Final Assessment is that it is satisfied that:

- (a) the approved certifiers are competent to certify the goods in respect of which the CTM is to be registered;
- (b) the rules governing the use of the CTM would not be to the detriment of the public;  
and
- (c) the rules governing the use of the CTM are satisfactory having regard to the principles relating to restrictive trade practices set out in Part IV of the *Trade Practices Act 1974* (the Act); the principles relating to unconscionable conduct set out in Part IVA of the Act; and the principles relating to unfair practices, product safety and product information set out in Part V of the Act.

Signed.....  
Commissioner Jennifer McNeil

## **1. INTRODUCTION**

### **1.1 The Corporation**

The Australian Egg Corporation Limited ("the Corporation") is a producer owned company which integrates marketing, research and development and policy services for the benefit of egg producers, providing funding through statutory levies, and other stakeholders. The Corporation is mainly funded through the statutory levies collected under the Egg Industry Service Provision Act 2002 and Australian Government funds. The Corporation represents approximately 400 Australian commercial egg producers who distribute a range of egg products to the Australian and international market.

### **1.2 Public Benefit**

Individual Egg Businesses are increasingly expected by government and consumers to develop a quality assurance program, based on HACCP which addresses issues such as, but not limited to, food safety, bio-security, animal welfare and egg labelling and is audited by a third party auditor accredited by the Corporation. Egg Corp Assured ("ECA"), the National Egg Quality Assurance Program ("NEQAP"), is such a program that has been structured to help commercial Egg Businesses develop a quality assurance program for their respective operations in the supply chain.

Among other things, the NEQAP will assist Egg Businesses to:

- minimise risks to the safety of eggs marketed to consumers
- protect the welfare of their flocks
- minimise the likelihood and impact of disease outbreaks
- minimise risk that eggs are incorrectly labelled
- ensure the production and delivery of consistent product quality
- provide an indication of origins in an Egg Business

The NEQAP will assist Egg Businesses who may not have the resources to undertake all of the steps necessary to meet the HACCP system requirements. The NEQAP is also aimed at establishing "good operating practices" to encourage Egg Businesses to reach the highest standards possible for the community and the consumer.

### **1.3 Scope of NEQAP**

The NEQAP covers the Farm practices relating to the rearing of pullets and the production of eggs from laying hens. The scope of the NEQAP is from the point of delivery of day old chicks or started pullets to the Farm up to the point of removal of started pullets, spent hens or eggs for human consumption from the Farm. The NEQAP also covers grading and packaging of eggs.

The NEQAP will assist Egg Businesses to undertake all the steps required to develop a HACCP Plan. The NEQAP manual provides the necessary guidelines for Egg Businesses to customise the NEQAP for their respective operations in the supply chain. In addition, the NEQAP provides a system for verification, training and monitoring.

## **2. DEFINITIONS**

In these rules unless the contrary intention appears:

“ECA Mark” means the certification trade mark logo, a representation of which appears in Schedule 1 to these rules.

“AECS” means the Corporation’s trade mark certification scheme and the Certification Rules relating thereto.

“Applicant” means a person or a body of persons, whether corporate or unincorporated, who has applied for a licence under the NEQAP and who is engaged in Pullet Rearing, Egg Production or Egg Grading/Packing and has the appropriate resources to meet the requisite standards required for a licence to use the ECA Mark.

“Audit” means an audit investigation conducted under the NEQAP by an Auditor.

“Auditor” means any person licensed to conduct an Audit as a third party by the Corporation after the satisfactory completion of the NEQAP Auditor training course.

“Certified Applicant” means an Applicant for a licence under the NEQAP who has been granted a licence to use the ECA Mark by the Corporation.

“Corporation” means the Australian Egg Corporation Limited.

“Critical Control Point” means the steps where important things can go wrong in the production process, so they are critical to eliminating the hazards.

“Egg Business” means a primary producer directly engaged in and conducting the activities of Pullet Rearing, Egg Production or Egg Grading/Packing.

“Egg Grading/Packing” is a primary producer whose business function is to grade and pack eggs for sale.

“Egg Production” is a business function that produces eggs for the purpose of sale.

“Farm” means a parcel of land with defined boundaries, whether fenced or otherwise, that enables the farmer to establish an effective bio-security zone around the areas that house hens or pullets that minimises the risk of disease organisms being brought into contact with the birds.

“HACCP” means Hazard Analysis Critical Control Point and is a system for preventing food safety hazards, adopted by food companies around the world, identifying hazards

and developing monitoring and control procedures to protect against important hazards at critical points in the production process.

“Hazards” means, as a minimum, anything that can damage the food safety of eggs produced for human consumption, the bio-security of the Farm, the health and welfare of the birds and the correct labelling of eggs.

“Minor Corrective Action” is a corrective action which does not affect the safety of the eggs to consumers, the health or welfare of birds or any other Critical Control Point or the integrity of the NEQAP.

“Major Corrective Action” is a corrective action which may have an effect on the safety of the eggs to the consumers, the health or welfare of birds or any other Critical Control Point or that adversely affects the integrity of the NEQAP.

“Pullet Rearing” is a business function that purchases layer chicks and rears them until they are dispatched to egg laying facilities.

“Supplier” means an Egg Producer or Egg Grader/Packer.

### **3. INTERPRETATION**

In these Rules singular words shall include the plural and vice versa unless the context requires otherwise.

### **4. CERTIFICATION TRADE MARK**

The ECA Mark shall be used by Certified Applicants for the purposes and objectives of the AECS.

The ECA Mark is the sole property of the Corporation and may only be used by an Applicant after an application for a licence is made to the Corporation and the granting of Certified Applicant status by the Corporation. A Certified Applicant shall make no claim or have any right to ownership in the ECA Mark.

Certified Applicants shall not engage in any conduct which is likely to adversely affect the Corporation’s ownership or rights in and to the protection of the ECA Mark. The ECA Mark shall only be used for the purpose of and in the manner authorised by these Rules and as approved by the Corporation.

Licences granted for the use of the ECA Mark shall for the term of the licence confer upon the Certified Applicant the right to use the ECA Mark in the manner stipulated in these Rules, but only so long as such licence is in full force and effect.

## **5. USE OF THE CERTIFICATION MARK**

Certified Applicants are authorised to use the ECA Mark on company stationary, literature, on eggs, on packaging, labelling, marketing materials and in advertising in a manner reflecting certification under the AECS or as may be approved in writing by the Corporation. The ECA Mark will only be used in relation to pullets or eggs which have been produced in accordance with the AECS. All uses of the ECA Mark must be approved by the Corporation.

Certified Applicants shall only use the ECA Mark in accordance with the instructions contained in the Corporation's Trade Mark Usage Manual annexed as Schedule 2 to these Rules and in accordance with any directions that may be issued from time to time by the Corporation in the interests of the integrity of the AECS and/or the protection and preservation of the ECA Mark.

## **6. LICENCES**

A licence to use the ECA Mark may be granted in respect of Pullet Rearing or Egg Production or Egg Grading/Packing or any combination thereof. A licence to use the ECA Mark carries with it the obligation to ensure that the ECA Mark is only used or associated with pullets or eggs which are produced and comply with the AECS and NEQAP and originate from a Certified Applicant.

A licence may only be granted to an Applicant engaged in an Egg Business. It is a condition of the grant of a licence to use the ECA Mark that the Certified Applicant will only use the ECA Mark with its own trade mark or its own name prominently displayed on or in relation to the packaging or on other marketing materials of pullets or eggs for the purpose of providing an indication to the public that the pullets or eggs are those having their origin in the Certified Applicant as distinct from their certification. No other trade marks or names are to be used on or in relation to the packaging or on other marketing materials featuring the ECA Mark without the prior written authorisation of the Corporation.

The number of licences granted under the AECS will be unlimited. Any Applicant applying for a licence, and becoming an accredited participant in the NEQAP, may be issued with an unconditional or conditional licence to use the ECA Mark. A certificate of licence is annexed in Schedule 3 to these Rules.

An Applicant for a licence may apply by means of the application form which appears in Schedule 4 to these Rules. A non-refundable licence application fee as stipulated by the Corporation from time to time is to accompany any application for a licence. The licence application fee will cover the cost of processing the application and the issue of any documentation or materials associated with accreditation.

A licence to use the ECA Mark shall only be granted after an Applicant has demonstrated that it has taken the necessary steps to develop a HACCP Plan, as required under the NEQAP and AECS and has been accredited as meeting all the requirements for the NEQAP and AECS. An annual non-refundable fee as stipulated by the Corporation from time to time is payable for the grant of a licence and for its annual renewal.

A licence is for a one year term and may be renewed upon an Audit being conducted to check compliance with the NEQAP requirements and which confirms the accreditation of the Certified Applicant under the AECS.

## **7. OBLIGATIONS OF THE CORPORATION**

The Corporation shall have the principal obligation of administering the NEQAP and the AECS, including the following obligations:

- a) The Corporation shall offer to all potential applicants, upon request, a manual in which guidelines as to the requisite standards for compliance with the NEQAP are set out.
- b) The Corporation shall train Auditors who have been accredited by the Quality Society of Australasia (QSA), in the requisite standards of the NEQAP so that they are qualified to conduct Audits of Applicants and Certified Applicants to determine compliance with the requisite standards of the NEQAP ("the Auditors").
- c) The Corporation shall make available the names and contact details of the Auditors for conducting the necessary inspections and Audits of Applicants and Certified Applicants under the NEQAP and shall act upon the Auditors' recommendations for the purpose of certifying Applicants under the NEQAP.
- d) The Corporation shall be responsible for the application of registration and maintenance of the ECA Mark as a registered certification trade mark under the Australian Trade Marks Act 1995. The Corporation shall, at its sole discretion, be responsible for the publication of advertisements for the purpose of promoting the nature, objects, functions and benefits of the NEQAP, the AECS, the ECA Mark and the identity of Certified Applicants and their products.
- e) The Corporation shall be responsible for maintaining and publishing a Register of Certified Applicants, the names of which shall be set out in alphabetical order.
- f) The Corporation shall be responsible for maintaining and publishing a Register of the Auditors, the names of which shall be set out in alphabetical order and/or under geographical regions.

## **8. ACCREDITATION**

### **8.1 Initial Accreditation**

An Auditor conducting an Audit of an Applicant or Certified Applicants' Egg Business and/or production processes shall supply the Corporation with an Audit report and the Corporation shall supply a copy of the Audit report to the Applicant or

Certified Applicant. In the event that the Audit report recommends accreditation and no corrective action is specified, then the Certified Applicant will achieve "A" grade certification status. In the event of Minor Corrective Action being specified in the Audit report and such Minor Corrective Action representing no more than 20% of Minor Corrective Action which is contained in an Audit, then the Certified Applicant will achieve "B" grade certification.

#### **8.2 Subsequent Accreditation**

A Certified Applicant shall be Audited prior to the expiry of each one year licence term. In the case of "B" grade certification, the Certified Applicant can apply prior to the expiry of the one year term for an Audit to be conducted for the purpose of achieving "A" grade certification. If upon the expiry of the one year term, the Minor Corrective Action listed in the Audit report has not been rectified then the Certified Applicant will lose its status as a Certified Applicant and will have no right to use the ECA Mark or be part of the NEQAP and AECS.

#### **8.3 Major Corrective Action**

If a Major Corrective Action is found as a result of an Audit or otherwise, a Certified Applicant will be advised of the Major Corrective Action and will be offered a period of three months by the Corporation within which to effect rectification. An Audit will be conducted upon rectification or upon the expiry of the three month period, whichever is the earlier, and if the Major Corrective Action has not been rectified and corrected, then the Certified Applicant will lose its status as a Certified Applicant and its licence under the AECS will be cancelled.

#### **8.4 Audits**

An Audit for the purpose of accreditation shall be organised by an Applicant directly with an Auditor and the Applicant shall have the liability and responsibility of payment of the fees of the Auditor.

### **9. THE REGISTER**

The Corporation will keep at its head office:

- i) A copy of these Rules;
- ii) Registers of Certified Applicants and of the Auditors ("the CA&A") past and present

and will cause to be entered therein:

- a) The full name and address of the CA&A and the location of the Farm and/or Egg Production facilities of Certified Applicants;
- b) The date upon which the name of the CA&A was entered in the registers;
- c) The date upon which any CA&A ceased to be a CA&A during the previous three (3) years;

- d) Dates and particulars of any changes which are required by these Rules to be entered in the registers;

The Corporation will:

- i) Make the registers available for inspection by the Trade Marks Office and will, when requested, furnish to the Trade Marks Office copies of any entries contained therein;
- ii) Advise the Trade Marks Office of any alteration, amendment, addition or deletion to or from these Rules;
- iii) Advise Certified Applicants of any alteration, amendment, addition or deletion to or from these Rules.

#### **10. OBLIGATIONS OF CERTIFIED APPLICANTS**

Each Certified Applicant will have the following obligations;

- a) To ensure that the Egg Business complies with the minimum standards of the NEQAP as applicable and to maintain these standards at all times;
- b) To agree with and ensure compliance with these Rules, including those requirements as to the use of the ECA Mark;
- c) To comply promptly with any reasonable direction of the Corporation relating to NEQAP and AECS and the compliance with these Rules;
- d) To use the ECA Mark in a manner that maintains and enhances the reputation and validity of the ECA Mark and the reputation and integrity of the NEQAP generally;
- e) To only use the ECA Mark in respect of pullets or eggs which have been produced in accordance with the NEQAP and AECS;
- f) Not to make any use of the ECA Mark or otherwise in relation to the NEQAP and AECS which is misleading;
- g) Only to use the ECA Mark as authorised by these Rules;
- h) To comply with all laws and regulations relating to the Egg Business;
- i) To advise the Corporation of any change in ownership of the Egg Business;
- j) Not to assign the benefit of certification or license under the NEQAP and/or AECS without the written consent of the Corporation, which shall not be unreasonably withheld;
- k) To pay promptly, or when due, all fees arising under these rules as specified from time to time by the Corporation;
- l) To assist an Auditor by providing access to the Egg Business and all records relevant for the purposes of the NEQAP and supply all information relevant to the accreditation process in a true and accurate manner;

- m) To advise the Corporation in writing of any matter which may be relevant to the accreditation of the Certified Applicant or its continuance;
- n) To allow the Corporation or its representative or an Auditor selected by the Corporation access to the Egg Business and all records and information relating to the NEQAP for the purpose of determining compliance with the NEQAP and these Rules;
- o) To train staff as to the NEQAP and maintain sufficient staff levels to ensure compliance with the NEQAP;
- p) Upon being notified in writing by the Corporation of any changes to the NEQAP or these Rules ("the Changes") to promptly take such steps as may be necessary to comply with the Changes within a reasonable period of time of such notification.
- q) To indemnify and hold harmless the Corporation against any claim or action arising out of any use or matter otherwise than specifically relates to and directly arises out of the compliance by the Certified Applicant of the NEQAP and AECS.

#### **11. TERMINATION**

A Certified Applicant may at any time withdraw from the NEQAP and AECS upon giving the Corporation at least 30 days notice in writing of intention to do so.

A Certified Applicant's licence shall be capable of termination or suspension in whole or in part by written notice from the Corporation to the Certified Applicant in the event of any of the following events:

- a) If the Certified Applicant makes any assignment for the benefit of creditors or files a petition in bankruptcy or is made bankrupt or becomes insolvent or unable to trade or pay its debts or is placed under the control of a receiver or is otherwise liquidated or wound up;
- b) A breach by the Certified Applicant of the terms of licence or of the Rules which is not rectified within a period of 30 days from the date of written advice from the Corporation as to such breach, to the full satisfaction of the Corporation;
- c) The non-compliance by the Certified Applicant with a reasonable direction issued by the Corporation in the interests of consumers and/or good business practices under the NEQAP, which is not rectified within a period of 30 days from the date of written advice from the Corporation.

If the Certified Applicant's certification is withdrawn, suspended or cancelled, the Certified Applicant, unless otherwise directed in writing by the Corporation, is to take immediate steps to cease all use of the ECA Mark and any reference to the NEQAP and AECS, including any distribution of company stationary, literature, advertising, eggs or packaging, or marketing materials ("the Materials") bearing the ECA Mark, except any

which exclusively relate to activities which may remain Certified and shall deliver the Materials to the Corporation or destroy them (or deface them so as to remove any use of the ECA Mark or reference to the NEQAP and AECS) under supervision of the Corporation or as otherwise directed by the Corporation in writing.

If a Certified Applicant finds itself subject to termination or suspension under the Rules it shall take all reasonable steps to mitigate any loss and/or potential loss. In any event the Certified Applicant shall not make any claim against the Corporation or any of its servants or agents or the Auditor for any losses and/or costs that may be incurred as a result of the Certified Applicant's use of the ECA Mark.

## **12. APPEAL**

An Applicant or Certified Applicant who is affected by and dissatisfied with a decision to refuse a licence or cancel or suspend a licence of the ECA Mark may, by notice in writing, advise the Corporation of the grounds of such dissatisfaction and request the Corporation to review its decision. In a case where the decision is based on a Egg Business Audit report and where it appears to the Corporation that reasonable grounds exist for such dissatisfaction, it shall seek the advice of the Auditor who conducted the Audit and issued the Audit report on the Applicant or Certified Applicant and thereafter may seek the further advice of a more senior and experienced Auditor and act on that advice in reviewing its decision. Within one month of receipt of such notice, the Corporation shall take steps to undertake the review and advise the Applicant or Certified Applicant of that fact and thereafter as soon as reasonably possible advise the Applicant or Certified Applicant the results of that review in writing.

In the event that the Corporation maintains the decision to refuse the licence to use the ECA mark, the Applicant or Certified Applicant concerned may then have the decision of the Corporation reviewed and it may apply for such review to be conducted by an arbitrator appointed by the Chartered Institute of Arbitrators of Level 6, 50 Park Street, Sydney, NSW.

## **13. GOVERNING LAW**

Matters arising in relation to the Rules and licences shall be governed and determined in accordance with the laws of the State of New South Wales.

# EggCorp Assured

**AUSTRALIAN EGG CORPORATION LIMITED**

CERTIFICATION TM

The *EggCorp Assured* program is the public face of the Australian egg industry's National Egg Quality Assurance Program (NEQAP).

Only *EggCorp Assured* egg businesses will be able to incorporate this quality mark on their eggs and egg packaging.

The Australian Egg Corporation administers the program and will market the *EggCorp Assured* trademark to Australian consumers. Eggs that are packaged *EggCorp Assured* will be recognised as a high-quality, safe product farmed by people who look after the health and welfare of their hens in environmentally sound conditions.

## Printing the Trademark directly on eggs

Licensees may also print this Mark directly on the surface of an egg using food-grade ink (shown below).

This Mark should be incorporated with the unique licence number issued to each licensee (shown below).

This Mark may only be used on an egg surface. Other identifying text (eg use by date, farm number, etc) may be placed to the right of the Mark (next to the star).

## Using the EggCorp Assured Trademark

The *EggCorp Assured* Trademark ('the Mark') may only be used by approved licensees who have expressly been granted use by the Australian Egg Corporation Limited ('the Corporation').

Licensees granted use of the Mark may only use it as specified by the EggCorp Assured Certification Rules. The Mark cannot be depicted as part of the licensee's livery.

There are two versions of the Mark - one for all packaging and promotional material, and another for printing on the egg itself (see above right).

Licensees may only use the approved version of the Mark as issued by the Corporation.

All artwork that contains the Mark must be approved by the Corporation prior to use.

### Main points:

- the acceptable Mark and colour combinations are shown below and above right.
- the Mark must never be traced, re-drawn, typeset with press letters or modified in any way.
- proportions of the Mark must not be altered
- The Mark cannot be published if the width is smaller than 12mm and all elements of the Mark must be legible.

15-20mm

ECA  
0000 ★

- 'Certification TM' is part of the Mark and must always be included in the Mark as shown below.
- The Mark must have a white background and have a minimum white space (clear of type, graphic elements, lines and illustrations).
- The licence number of the licensee must be centred below the Mark using an identical colour and font (Myriad Roman) as the 'Certification TM' text, and must be no wider than the Mark.
