Purpose
This model Full Research Collaboration Contract is intended to be used when a Sponsor (i.e. a
sponsoring organisation such as a company) will be providing money or other assistance to a
Research Organisation (such as a university or other research institution) to conduct research.
The research may result in Intellectual Property or other outputs (e.g. other material covered under
'Deliverables') which can be commercialised (i.e. licensed or sold).

This model Contract is designed for higher value (i.e. $100,000 or more) and higher risk projects
(as compared to the Mini IP Toolkit Model Contract) and should not be used for other purposes.

Government agencies may also elect to use this contract (or a variation) if it is appropriate for their
purposes.

Structure
This model Contract comprises three Parts and an attachment:

- Part 1 - Contract Terms (standard legal terms which apply to this Contract);
- Part 2 - Contract Details (the variable legal terms which must be agreed and completed by
  the Parties); and
- Part 3 - Project Details (the specific details of the Project which must be agreed and
  completed by the Parties);
- Attachment A - Template IP Register.

Please complete all highlighted sections in this Contract, ensuring that only one option is selected
in each clause and that the other option(s) are deleted, unless the instructions provide that more
than one option may be selected.

Attachment A must be completed and maintained by the Research Organisation after the Contract
has been signed, unless the Parties agree otherwise.

Please delete all highlighted notes, such as this note, prior to signing the completed Contract.

Details.

16 Moral rights

[Moral rights will be owned by the persons who create Material for the purposes of this Contract, including reports, software, etc, which is subject to the provisions of copyright law. Moral Rights cannot be assigned or transferred. If a person has Moral Rights then they should be recognised as the author of their work by the Sponsor and Research Organisation, including by having their name appear on their work. They may also be able to prevent certain uses of their work (such as editing). If this may be problematic for one or both Parties, the Research Organisation may be required to obtain written consents from those personnel, by selecting the optional clause 19 of the Project Details. For more information on Moral Rights, please refer to the Toolkit.]

16.1 Moral rights will be addressed in accordance with clause 19 of the Project Details.

16.2 When providing Material to the other Party for the purposes of this Contract, each Party must ensure that the Material contains, or is provided with, correct attribution of authorship, if applicable, so as to enable the other Party to comply with clause 16.1 of the Contract Terms, to the extent the other Party is required by this Contract to do so.

17 Confidentiality

17.1 Subject to clause 17.2 of the Contract Terms, the Sponsor and the Research Organisation (Obtaining Party) must each keep strictly confidential all Confidential Information provided to it by the other Party (Disclosing Party) in connection with this Contract.

17.2 Clause 17.1 of the Contract Terms does not prevent:

(a) use or disclosure of information lawfully obtained from any third person or lawfully developed by the Obtaining Party, other than as a result of a breach of confidentiality obligations;

(b) disclosure of information required to be disclosed by the Obtaining Party by law or pursuant to the rules of any securities exchange;

(c) disclosure by the Obtaining Party to its legal or other advisers, subject to the relevant adviser being subject to confidentiality obligations or a confidentiality undertaking in a form reasonably satisfactory to the Disclosing Party;

(e) disclosure of information for the purposes of, or in connection with, the registration, protection, exercise or Commercialisation of any Project IP, Background IP or Third Party IP, if such registration, protection, exercise or Commercialisation is permitted by this Contract;
(f) disclosure of information to an auditor solely for the purposes of an audit; or

(g) use or disclosure of information by the Obtaining Party which the Disclosing Party has agreed in writing may be used or disclosed by the Obtaining Party, provided such use or disclosure is in accordance with the terms of that agreement.

17.3 If a Party becomes aware that it has or may have breached this clause 17 of the Contract Terms, that Party must immediately notify the other Party and take all reasonable steps required to prevent or stop the breach.

19.2 The Research Organisation must deliver to the Sponsor correctly-rendered invoices in accordance with the payment schedule in clause 10 of the Project Details. The Sponsor is not obliged to make a payment of any amount to the Research Organisation until 30 days after it has received a correctly-rendered invoice in respect of that amount, or within such other time period agreed by the Parties in writing.

19.3 The Research Organisation must only spend the Funds in accordance with the Budget.

19.4 Unless agreed otherwise by the Parties in writing, the Sponsor is not responsible for the provision of additional money to meet any expenditure in excess of the Budget, even if additional money is required to complete the Project.

20 Insurance

20.1 Each Party must maintain, and ensure its subcontractors maintain, for the duration of the Project, insurance:

(a) as set out in clause 11 of the Contract Details; and

(b) as required by all relevant laws relating to worker’s compensation, for its Personnel engaged in the conduct of the Project.

20.2 Each Party must promptly provide to the other Party evidence of the insurances it maintains and its subcontractors maintain, for the purposes of clause 20.1 of the Contract Terms, when requested.
21 Liability

Liability

[To ensure that costs and resources (such as the cost of insurance) are minimised, liability under an agreement should generally be borne by the party best placed to manage it. In this Contract, this will generally be the Research Organisation, as it is responsible for undertaking the research activities, which are likely to give rise to the most risk. Each Party should complete a risk assessment prior to negotiating this clause to assist in assessing the risks of the Project. A risk assessment will help the Parties to determine if risk treatment strategies (such as additional insurance) may be appropriate.]

21.1 The liability of the Parties under this Contract will be determined in accordance with clause 12 of the Contract Details, subject to any limitation of liability specified in clause 22 of the Contract Terms.

21.2 The rights, duties, obligations and liabilities of the Parties under this Contract are in every case several and not joint or joint and several.

22 Limitation of liability

22.1 The Parties' liability arising from or in connection with this Contract is limited as specified in clause 13 of the Contract Details.

23 Warranties

23.1 In addition to, and without limiting, the warranties provided elsewhere in this Contract, the Parties provide the warranties specified in clause 14 of the Contract Details, subject to the exclusions specified in clause 14 of the Contract Details, if any.

24 Privacy

24.1 Each Party must comply with the Privacy Act 1988 (Cth) (Privacy Act) in respect of all personal information (as defined in the Privacy Act) that it collects, uses, holds or discloses, whether by itself directly or through another person, including the other Party.

24.2 Without limitation to clause 24.1 of the Contract Terms, the Research Organisation must comply, in respect of all personal information provided to it by the Sponsor or other third parties on behalf of the Sponsor and all personal information collected, used, held or disclosed by the Research Organisation in the performance of its obligations under this Contract (collectively Information), with the privacy policy of the Sponsor as notified to the Research Organisation by the Sponsor from time to time.

24.3 The Research Organisation must not use any of the Information for any purpose other than to perform its obligations under this Contract and must comply with all of the Sponsor’s reasonable directions in respect of that Information, provided such directions are not contrary to the Privacy Act or the Sponsor’s privacy policy.

24.4 Each Party must notify the other Party immediately if it becomes aware that it has breached or may have breached any of its obligations under this clause 24 of the Contract Terms.

25 Work health and safety

25.1 Each Party must fully comply, and ensure that its Personnel comply, with its obligations under the WHS Law when performing this Contract, including by consulting, co-operating and co-
ordinating activities with the other Party and any other person who, concurrently with the Parties, has a work health and safety duty under the WHS Law in relation to the same matter.

25.2 The Research Organisation represents and warrants that:

(a) it has given careful and prudent consideration to the work health and safety implications of the performance of the Project and its obligations under this Contract; and

(b) the proposed method of performance of those obligations complies with, and includes a system for proactively identifying and managing work health and safety risks in a documented fashion which complies with, WHS Law.

25.3 Without limiting the Research Organisation’s obligations under this Contract or at law, the Research Organisation must:

(a) ensure, so far as is practicable, the health and safety of Sponsor Personnel and Research Organisation Personnel any other person who may be put at risk from work that the Research Organisation carries out under this Contract;

(b) provide to the Sponsor within ten days of a request by the Sponsor (or such longer period agreed by the Parties) any information or copies of documentation held by the Research Organisation or its Personnel to enable the Sponsor to comply with its obligations under the WHS Law in relation to this Contract;

(c) provide to the Sponsor within ten days of a request by the Sponsor (or such longer period agreed by the Parties) written assurances specifying, and the documents supporting, that:

(i) to the best of the Research Organisation’s knowledge it and its Personnel are compliant with WHS Law; and

(ii) the Research Organisation has made all reasonable enquiries before providing the assurances in clause 25.3(c)(i) of the Contract Terms;

(d) promptly provide to the Sponsor copies of any formal notices or written communications issued to the Research Organisation by a regulator or agent of a regulator under or in compliance with the WHS Law relating to the Project or this Contract, and any document prepared by the Research Organisation in response to any such notice or communication;

(e) immediately report to the Sponsor any notifiable or reportable incident under the WHS Law relating to the Project or this Contract, and provide the Sponsor with a copy of the notice provided to the relevant regulator as a result of the notifiable or reportable incident; and

(f) provide to the Sponsor such other information as may be required by the Sponsor to satisfy its obligations under WHS Law.

25.4 If Research Organisation Personnel are required to be physically located at the Sponsor’s premises for the purposes of the Project or this Contract (including Sponsor premises licensed to the Research Organisation, but excluding Sponsor premises managed by the Research Organisation) the Sponsor must manage the physical work environment and facilities in which those persons are required to work, in accordance with WHS Law.
26 Conflict of interest

26.1 Each Party warrants that at the Commencement Date, to the best of its knowledge and after making diligent inquiry, no Conflict of Interest exists or is likely to arise in the performance of its obligations under this Contract.

26.2 If, during the Term, a Conflict of Interest arises or appears likely to arise in respect of a Research Organisation, the Research Organisation must:

(a) immediately notify the Sponsor in writing of all relevant information relating to the Conflict of Interest, and the steps that it proposes to take to resolve or otherwise deal with the Conflict of Interest; and

(b) promptly take any and all steps that the Sponsor reasonably requires to resolve or otherwise deal with the Conflict of Interest.

26.3 If the Research Organisation fails to notify the Sponsor that a Conflict of Interest has arisen or appears likely to arise in accordance with clause 26.2 of the Contract Terms, or is unable or unwilling to resolve or deal with the Conflict of Interest as required in accordance with clause 26.2 of the Contract Terms, the Sponsor may terminate this Contract for breach of a material term in accordance with clause 33(b) of the Contract Terms.

27 Notices

Obligation for notices

27.1 Each notice under this Contract must be:

(a) in writing;

(b) addressed to the recipient at the applicable address for notices set out in clause 15 or 16 of the Contract Details; and

(c) left at, or sent by pre-paid post, facsimile or email to, that address.

Deemed receipt

27.2 Notices given in accordance with clause 27.1 of the Contract Terms will be deemed to have been received:

(a) if delivered by hand, on the day of delivery (or the next Business Day if the day of delivery is not a Business Day);

(b) if sent by post, five Business Days after being sent;

(c) if sent by facsimile, on the day of transmission provided that no error report is received in respect of the transmission (or on the next Business Day if the day of transmission is not a Business Day); or

(d) if sent by email, when the sender receives a confirmation of receipt from the intended recipient's computer demonstrating that the email has been received.

28 Force Majeure Events

28.1 Where, by reason of a Force Majeure Event, a Party is delayed in performing, or is unable, wholly or in part, to perform, any obligation under this Contract, and that Party:

(a) gives the other Party prompt, written notice of that Force Majeure Event including reasonable particulars, and, in so far as known, the probable extent to which it will be unable to perform, or be delayed in performing that obligation; and
(b) uses reasonable endeavours to remove, or mitigate the effects of, that Force Majeure Event as quickly as possible,

that obligation is suspended so far as it is affected by the Force Majeure Event during the continuance of that Force Majeure Event and that Party will be allowed a reasonable extension of time to perform its obligations.

28.2 If, after 30 days, a Force Majeure Event has not ceased, the Parties must meet in good faith to discuss the situation and endeavour to achieve a mutually satisfactory resolution to the problem.

29 Withholding tax

29.1 [Note: The Parties should seek their own advice on the tax implications of entering this Contract and the appropriateness of the following clause to their particular circumstances.] If a Party is required by law to make a deduction or withholding from an amount payable to the other Party under or in connection with this Contract, whether for tax or otherwise, it must do the following:

(a) notify the other Party as soon as reasonably practicable that it is required to make the deduction or withholding;

(b) promptly make the deduction or withholding and pay the amount in the manner required to the authority entitled to receive it; and

(c) if requested by the other Party, as soon as reasonably practicable, deliver evidence satisfactory to the other Party that the payment has been made.

30 Goods and services tax

30.1 For the purposes of this clause 30 of the Contract Terms:

(a) unless otherwise stated, terms that have a defined meaning in the A New Tax System (Goods and Services Tax) Act 1999 (Cth) (GST Act) have the same meaning as in the GST Act;

(b) in addition to its meaning in the GST Act, the term GST includes any notional liability to pay GST;

(c) the term consideration takes its ordinary meaning, rather than its defined meaning in the GST Act; and

(d) if a supply is treated as a periodic or progressive supply under the GST Act, each periodic or progressive component of the supply will be treated as if it is a separate supply.

30.2 Unless otherwise stated, all consideration to be paid or provided under or in connection with this Contract is expressed exclusive of GST.

30.3 If GST applies to a supply made under or in connection with this Contract, for consideration that is not stated to include GST, the recipient must pay to the supplier an additional amount equal to the GST payable on the supply (GST Amount). The GST Amount is payable at the same time that the first part of the consideration for the supply is to be provided. However, this clause 30.3 of the Contract Terms will not apply if the GST on the supply is reverse charged and payable by the recipient.
30.4 Notwithstanding any other provision of this Contract, the recipient need not pay the GST Amount until it has received from the supplier a tax invoice or adjustment note (as the case may be).

30.5 If an adjustment event arises in respect of a supply to which clause 30.3 of the Contract Terms applies, the GST Amount must be adjusted to reflect the adjustment event and a payment must be made by the supplier to the recipient, or by the recipient to the supplier, as the case may be.

30.6 If a Party is entitled to be reimbursed or indemnified for a cost or expense under or in connection with this Contract, the amount to be reimbursed must be reduced to the extent that the Party (or the representative member for a GST group of which that Party is a member) is entitled to an input tax credit for the cost or expense.

30.7 Unless otherwise stated, if an amount payable under or in connection with this Contract is to be calculated by reference to:

(a) the consideration to be received for a supply; or
(b) the consideration to be provided for an acquisition;

then, for the purposes of that calculation, the consideration is to be reduced to the extent that it includes any amount on account of GST (regardless of whether the amount is separately identified or included as part of the consideration).

30.8 This clause 30 will survive the termination or expiry of this Contract.

31 Variations

31.1 Neither Party may vary this Contract, including the scope of the Project, without the prior written agreement of the other Party.

31.2 The Sponsor is not liable to pay for work undertaken or expenditure incurred by the Research Organisation as a result of a variation to this Contract or the Project, except if it has occurred in accordance with clause 31.1 of the Contract Terms.

32 Dispute resolution

32.1 A Party claiming that a dispute has arisen must give the other Party a notice of the dispute, providing details.

32.2 The Sponsor and the Research Organisation, represented by their respective directors or chief executive officers or equivalent Personnel, must promptly and in good faith attempt to resolve any dispute referred to in clause 32.1 of the Contract Terms.

32.3 If a dispute is not resolved by the respective directors or chief executive officers or equivalent Personnel of the Parties within 20 Business Days of the date of the notice referred to in clause 32.1 of the Contract Terms, then the Parties must comply with clause 17 of the Contract Details before commencing proceedings in a court or tribunal.

32.4 This clause 32 of the Contract Terms and clause 17 of the Contract Details do not preclude either the Sponsor or the Research Organisation from seeking urgent interlocutory relief in a court.
33 Termination and expiry

33.1 Without limiting any other right of termination that the Parties may have under law or equity, this Contract may be terminated:

(a) at any time by the mutual written agreement of the Parties;
(b) immediately by a Party giving notice in writing, if the other Party experiences an Insolvency Event or breaches a material term of this Contract which breach cannot be remedied;
(c) by a Party if the other Party has reached a limit of liability described in clause 22 of the Contract Terms; or
(d) by a Party (First Party) if a breach of this Contract occurs by the other Party (Breaching Party) and the Breaching Party fails to remedy that breach within 20 Business Days after the date on which the First Party notified it of that breach.

33.2 Termination of this Contract by a Party does not limit or affect any right of action or remedy which has accrued to that Party.

34 General provisions

34.1 The termination or expiry of this Contract for any reason will not extinguish the obligations of the Parties which, either expressly or by their nature, are intended to survive termination or expiry, including those clauses concerning perpetual rights in Intellectual Property and Confidential Information.

34.2 This Contract will be governed by and construed in accordance with the laws of the Governing Jurisdiction. Each Party submits to the non-exclusive jurisdiction of the courts of the Governing Jurisdiction in connection with matters concerning this Contract.

Assignment

34.4 Neither Party may assign the benefit of, or its rights under, this Contract, including rights to Project IP, without the prior written consent of the other Party, which consent must not be unreasonably withheld.

Clause severance

34.5 Any provision of this Contract that is held void by a court, or is or becomes at any time unlawful or unenforceable, will, to the extent to which it is void, unlawful or unenforceable, be deemed to be excluded from this Contract without affecting the validity or enforceability of the remaining provisions.

Waiver

34.6 No failure to exercise, or any delay in exercising, any right, power or remedy by a Party operates as a waiver of that right, power or remedy.
Relationship

34.7 The relationship between the Parties is that of independent contractors. Unless expressly stated otherwise, the Parties are not partners, joint venturers or principal and agent.

34.8 Neither the Sponsor nor the Research Organisation may make representations on behalf of the other Party.

Further assurances

13 Background IP and Third Party IP (clause 13 of the Contract Terms)

(a) carrying out the Project;
14 Ownership of Project IP (clause 14 of the Contract Terms)

Ownership

14.1 The owner of Project IP is:

(a) if the table below provides that a Party will own particular Project IP, then that Party in respect of that particular Project IP upon its creation; and

(b) for all other Project IP, upon its creation: [insert only one option from the options below and delete all other options. Option C should only be selected if the Parties are willing to manage the Project IP together for the long term and accept the risk that this may result in additional resourcing and expense and increase the potential for disputes to arise.]

[Option A] the Sponsor

[Option B] the Research Organisation

[Option C] both parties as tenants in common in the following proportions: [insert percentage proportions for the Parties (e.g. 50% Sponsor/50% Research Institution)]. [Note: The agreed percentage is often based on the respective financial and In-kind Contributions made by the Parties.]

15 Use of Project IP (clause 14.3 of the Contract Terms)

15.1 [Note: If the Owning Party wishes to vary the licensed rights granted to the other Party from those set out in clause 14.3 of the Contract Terms, it should specify those rights here. Otherwise this clause should be marked ‘not used’.]

16 Protection of Project IP (clause 14 of the Contract Terms)

Protection of Project IP (other than co-owned Project IP)

16.1 Clauses 16.2 and 16.6 of the Project Details apply only in respect of Project IP that is not co-owned by the Parties.

16.2 The Owning Party may choose whether or not to pursue registration or other protection in respect of its Project IP in its own name and at its own expense. [Note: The remainder of this sentence provides an optional obligation which is appropriate if the other Party’s rights may
be affected by the Owning Party registering or protecting Project IP] but must first consult with the other Party.

16.3 Each Party must take all reasonable steps to protect the Project IP and must give the other Party prompt written notice of any actual or potential claims concerning infringement of Project IP which comes to their attention.

16.4 [Optional] The Owning Party may not dispose of or encumber the whole or any part of its interest in any Project IP, except with the prior written consent of the other Party, which must not be unreasonably withheld.

16.5 The other Party must give the Owning Party all assistance which it reasonably requests in order to protect the Owning Party's Project IP, at the Owning Party's expense.

16.6 [Insert one of the following options, and delete the option which is not used:

[Option A] The Owning Party may choose whether or not to pursue registration in respect of its Project IP in its own name and at its own expense but must first consult with the other Party.

[Option B] The Owning Party may not apply for registration of Project IP except with the other Party's prior written consent.

Protection of co-owned Project IP

[Include the following clauses only if Option C has been selected in clause 14.1(b) of the Project Details above or the table in clause 14.1 of the Project Details provides for co-ownership (sometimes referred to as 'joint' ownership) of the Project IP by both Parties.]

[Note: The following clauses provide that the Parties must agree various obligations in writing. There is a risk that such agreement will not be able to be reached at the relevant time. To minimise this risk, the Parties may wish to enter into a separate Commercialisation agreement or Commercialisation strategy which addresses these issues prior to commencing any Commercialisation.]

16.7 In respect of all Project IP which is co-owned, the Parties must:

(a) agree in writing to obtain registration or protection for that Project IP;

(b) agree in writing any action required to defend or enforce their rights in that Project IP;

(c) agree in writing which of them will be responsible for implementing the chosen method of registration, protection, defence or enforcement; and

(d) unless agreed otherwise in writing, share the cost of registering, protecting, defending or enforcing that Project IP in proportion to their percentage of ownership of the Project IP.

16.8 If one Party does not wish to, or is unable to, pay its share of the costs of the registration, protection, defence or enforcement of the co-owned Project IP, the other Party may pay the costs of the registration, protection, defence or enforcement at its absolute discretion. The Party paying such costs will be entitled to recoup these costs from the proceeds of any Commercialisation of such Project IP prior to the proceeds being distributed.

16.9 Neither Party may dispose of or encumber the whole or any part of its interest in any Project IP, except with the prior written consent of the other Party, which must not be unreasonably withheld.
17 Commercialisation of Project IP (clause 14 of the Contract Terms)

Right to Commercialise

[Insert one of the following options and delete the other options or insert an alternative option. Note: Options A and B are only intended for use if the Project IP is not co-owned.]

Option A - Owning Party has exclusive right to Commercialise Project IP

[Note: this option may be appropriate if, for example, the Owning Party is the Sponsor and the Sponsor has fully funded the research.]

17.1 The Owning Party is the only Party that may Commercialise Project IP and may Commercialise the Project IP in accordance with this Contract.

Option B - Owning Party has first right to Commercialise Project IP

[Note: this option may be appropriate if, for example, both Parties have an interest in seeing the Project outcomes Commercialised, but one Party is in a better position to undertake the Commercialisation (for example, because its core business involved Commercialisation).]

17.2 The Owning Party has the first right to Commercialise the Project IP and may Commercialise the Project IP in accordance with this Contract.

17.3 If the Owning Party has not commenced Commercialising its Project IP within a period of [insert years - e.g. 3 years from the end of the Term], the other Party may request a licence to Commercialise that Project IP on reasonable commercial terms, and the Owning Party must negotiate the terms of that licence in good faith.

Option C - Either Party may Commercialise Project IP subject to a right of refusal

[Note: this option is generally used for co-owned Project IP only.]

17.4 Either Party may Commercialise the Project IP in accordance with the terms of this Contract, provided that:

(a) it has provided the other Party with no less than [insert time period] prior written notice of the Commercialisation (providing full details of the proposed Commercialisation); and

(b) the other Party has not provided written notice of its refusal within [insert time period] of receiving the notice.

Option D - Commercialisation agreement/strategy

[Note: this option is used if the Parties choose to agree the Commercialisation details at a later date. This option results in a risk that the Parties may not be able to agree the terms at a later date. If this option is chosen, the separate agreement or strategy should be agreed as soon as possible.]

17.5 A Party may only Commercialise Project IP in accordance with a Commercialisation agreement or Commercialisation strategy agreed by the Parties in writing.

Option E - Either Party may Commercialise Project IP as agreed

[Note: this option is generally used for co-owned Project IP only.]

17.6 Either Party may Commercialise the Project IP, subject to the following conditions:

[Insert agreed terms, including how the income will be apportioned - e.g. will each Party be entitled to keep its own income or will the Parties share the net income derived from the Commercialisation of co-owned Project IP in proportion to their percentage of ownership of the Project IP (e.g. 50/50)?]
the income is shared, then generally each Party will be entitled to recoup costs of registration/protection/Commercialisation as a first charge from the proceeds of Commercialisation. If so, this should be stated.

Commercialisation conditions

17.7 The following conditions apply to any Party which Commercialises Project IP:

[Insert any conditions which apply if a Party wishes to Commercialise Project IP or insert 'nil'.
Examples of conditions include that:

(a) the Commercialising Party must notify the other party or consult with the other Party in relation to the proposed Commercialisation strategy; or
(b) the other Party must provide its prior written consent to the terms and conditions of any agreements entered into by the Commercialising Party for the purposes of Commercialising Project IP;
(c) Commercialisation may only occur in accordance with a Commercialisation agreement or Commercialisation strategy agreed by the Parties in writing; and/or
(d) the Commercialising Party must pay to the other Party a fee - of a specified amount, or on reasonable commercial terms as agreed by the Parties in writing.]

Commercialisation of Background IP

[Insert one of the following options and delete the other option.]

Option A - terms to be agreed

17.8 If a licence to Commercialise a Contributing Party's Background IP in conjunction with, or as part of, Commercialising Project IP, is requested by the Recipient Party, both Parties must negotiate in good faith to agree the reasonable commercial terms of that licence.

Option B - terms agreed

17.9 If a Recipient Party is permitted by this Contract to Commercialise Project IP it is hereby granted by the Contributing Party and accepts a perpetual, irrevocable, world-wide, non-exclusive [Optional: royalty-free and fee-free] licence to Use the Contributing Party's Background IP for the purposes of Commercialising Project IP, [Optional: if nil fees or royalties are payable, delete the remainder of this clause] but must pay the Contributing Party: [insert details of royalty or licence fee, including when and how it is payable.]

Reasonable commercial terms

17.10 Any reference in this clause 17 of the Project Details to reasonable commercial terms requires regard to be given both to the value of the applicable Intellectual Property and the respective contributions of the Parties to the Project.

18 IP Register (clause 15 of the Contract Terms)

18.1 [An IP Register is likely to be required unless no Commercialisation will occur and the Project will not result in any substantial Project IP.] An IP Register [insert 'must be kept' OR 'may not be kept'] by the Research Organisation.

19 Moral Rights (clause 16 of the Contract Terms)

[Insert one of the following options and delete the other option.]

Option A - Compliance
Each Party must respect the Moral Rights of the Personnel of the other Party as required by law.

Option B - Consent

19.1 The Research Organisation must:
(a) use its best endeavours to obtain from its officers, employees, contractors, agents, students and volunteers; and
(b) require its subcontractors to use their best endeavours to obtain from their officers, employees, contractors, agents, students and volunteers, who, in the performance of the Project, are or may be engaged in the creation of Material in which copyright subsists, a genuine consent in writing to the use of that Material for the purposes contemplated by this Contract, even if such use would otherwise be an infringement of their Moral Rights.

19.2 If the Research Organisation or any of its subcontractors are unable to obtain a consent described in clause 19.1 of the Project Details, the Research Organisation must promptly notify the Sponsor in writing.

20 Confidential Information (clause 17 of the Contract Terms)

[Due to the operation of clause 17 of the Contract Terms, Confidential Information can be disclosed in a number of circumstances, including if disclosure is necessary to exercise Intellectual Property rights, such as patenting or Commercialising Project IP. Therefore, including information in this table will not prevent all disclosures. Sometimes patenting may not be the best choice to protect Project IP as it necessitates the disclosure of Confidential Information.]

20.1 The following is Confidential Information as at the Commencement Date:

21 Publication (clause 18 of the Contract Terms)

[Note: Research Organisations which are universities or similar institutions may have responsibilities to broadly disseminate teaching or research outcomes. The outcomes of publicly funded research, in particular, should generally be made available to the public. However, the Parties must be mindful that disclosure of certain information may adversely affect the ability to patent Project IP or otherwise Commercialise Project IP and may result in the disclosure of Confidential Information. Publication may also be prevented by Third Party IP rights in Material. Therefore, publication must be considered and managed carefully by the Parties. The following optional clause may be included to permit publication of research outcomes.]
21.1 The Parties agree that the Research Organisation may publish the following Material: [insert Option A, B or C and delete the other options, or insert an alternative option.]

[Option A] insert 'all Project research outcomes and Deliverables except those relating to Patent or Design applications planned or in progress.'

[Option B] insert a list of Project research outcomes or Deliverables.

[Option C] insert 'all material in which Project IP is owned by the Research Organisation'.

21.2 Publication under clause 21.1 of the Contract Details is subject to the following conditions:

[Insert one or more options or alternative options. For example:]

[Option A] insert 'nil.'

[Option B] insert 'Publication may not occur until [insert e.g. 18 months] after the end of the Project Term.'

[Option C] insert 'Prior written approval by the Sponsor of the publication is required on a case-by-case basis.'

[Option D] insert 'Publication may not occur until after an application for registration of Project IP has been made.'

[Option E] insert 'Publication may only occur in [insert journal].'
